AND OTHER SUPERB

ROSES

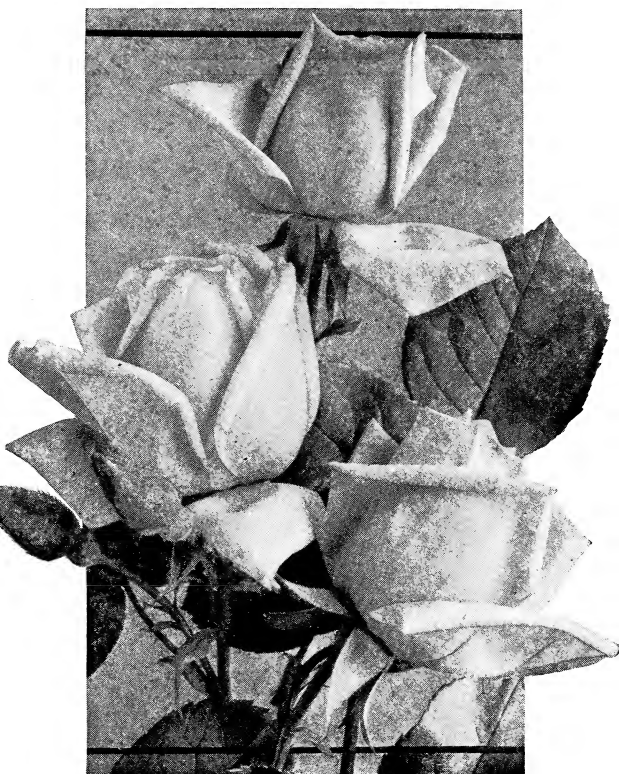

The
Berryhill Nursery
Company

Store: 202 Locust Street
Nursery: Jonestown Road, opposite Colonial Club

HARRISBURG, PENNA.

Berryhill Superb Roses

These Roses are eastern home-grown, hardy, acclimated stock. They are good, strong plants and will give you no disappointments. The price we must ask for them is not as low as that at which some Roses are offered, but we are confident **ours** will be the cheapest for you in the end.

Polyanthas (dormant)	60	5 00
Potted Plants	1 25	10 00

HYBRID TEA ROSES

BETTY. Extra-large, globular flower; color ruddy gold, overlaid with sulphur-yellow. Especially long blooming period. Very fragrant.

Columbia. Not only the most popular for winter cut-flowers, but also a vigorous, free-blooming Rose for garden planting. Rose-pink and delightfully fragrant.

Dean Hole. Silvery carmine, shading to salmon. Pointed buds open into large fragrant blooms.

HYBRID TEA ROSES, continued

ETOILE DE FRANCE. Vivid crimson, with darker shadings. Double; deliciously scented. One of the best red varieties.

GENERAL MACARTHUR. Noted American favorite. Extra-large, full, well-developed blooms; deep velvety scarlet—nearly bright crimson. A continuous bloomer.

Gruss an Teplitz. Crimson-scarlet—flashy, and attracting attention over and above its fellows. Delicious and lasting fragrance. Classed as a constant bloomer. Large, full flowers. This variety may also be used to the greatest advantage in the foreground of the shrubbery border because of its strong contrasting color.

JONKHEER J. L. MOCK. Extra-large flowers, bright cherry-red on outside of petals, shining silvery flesh-white on inside. Lasting blooms. Grows on straight, long stems. One of the finest Roses in our collection.

KAISERIN AUGUSTA VICTORIA. Extra-large, creamy white flowers frequently shading to delicate primrose. A standard and favorite variety.

Killarney Queen. Cerise-pink, shading lighter. Vigorous grower; free bloomer. Large, fragrant, well-formed buds and flowers.

Killarney White. Fully as desirable and beautiful as the old pink Killarney which it strongly resembles except in color. Plant is a strong grower.

La France. Color varies from bright to silvery pink—an exceedingly beautiful combination.

LADY URSULA. Wonderful fragrance. Blooms large, with smooth, broad, thick petals; flesh-pink.

La Tosca. Magnificent Rose; delightful soft pink, tinted rosy white.

MME. BUTTERFLY. A sport from Ophelia, retaining all the good qualities of its parent, but with deeper shadings of apricot and gold on salmon-pink ground.

MME. CAROLINE TESTOUT. Large beautiful globular flowers. The broad petals are bright satiny rose, slightly darker at center, soft carmine-pink at edges. Bushes strong, vigorous, and very productive.

MME. EDOUARD HERRIOT. Coral-red, shaded to yellow. Superb semi-double flowers.

Mme. Melanie Soupert. Salmon-yellow; very large, full flowers of fine form; deliciously fragrant.

MME. RAVARY. Golden yellow buds open into orange-yellow flowers. A charming variety.

Milady. Glowing scarlet-crimson. Bush strong and vigorous and bears large flowers in abundance.

Miss Cynthia Forde. Large, perfectly formed, brilliant rose-pink flowers. Distinctive perfume.

Mrs. Wakefield Christie-Miller. Bright pink with lighter shadings. Large lasting blooms.

RADIANCE. Carmine-pink. A very desirable Rose.

September Morn. Beautiful light pink flowers.

William Shean. Light silvery pink. Strong, vigorous grower.

Prince Camille de Rohan

HYBRID PERPETUALS

Anna de Diesbach. Brilliant carmine. Very fragrant. Large, double flowers.

Baron de Bonstetten. Dark velvety crimson. Large full flowers borne profusely in June.

FRAU KARL DRUSCHKI. Pure white. Buds are long and unfold in waves of snowy splendor until flowers are large and fleecy.

GENERAL JACQUEMINOT. One of the oldest and most favorably known Roses. Bright crimson; robust and vigorous grower.

Magna Charta. Rosy pink blooms, profusely borne. Strong and most compact in growth.

MARGARET DICKSON. White with rose center; very dainty. Solid, vigorous grower.

Marshall P. Wilder. Crimson-scarlet. Very fragrant. Full round and extra large.

MRS. JOHN LAING. Soft pink; blooms have a strong and far-reaching fragrance. Large, double, finely formed flowers. Quick, vigorous grower.

Mrs. R. G. Sharman-Crawford. Deep rosy pink, with outer petals flushed pale flesh.

Mme. Gabriel Luizet. One of the best light silvery pink varieties.

PAUL NEYRON. Largest Rose in the world. Blooms two or three times a year. Clear pink shading to rose. Strong grower.

Prince Camille de Rohan. Deep velvety crimson-maroon, shaded scarlet. Magnificent dark Rose.

ULRICH BRUNNER. Very fragrant. Light red, large globular blossoms; constant bloomer.

Victor Verdier. Requires a little protection. Cherry-red or velvety rose, deeper at center.

CLIMBING ROSES

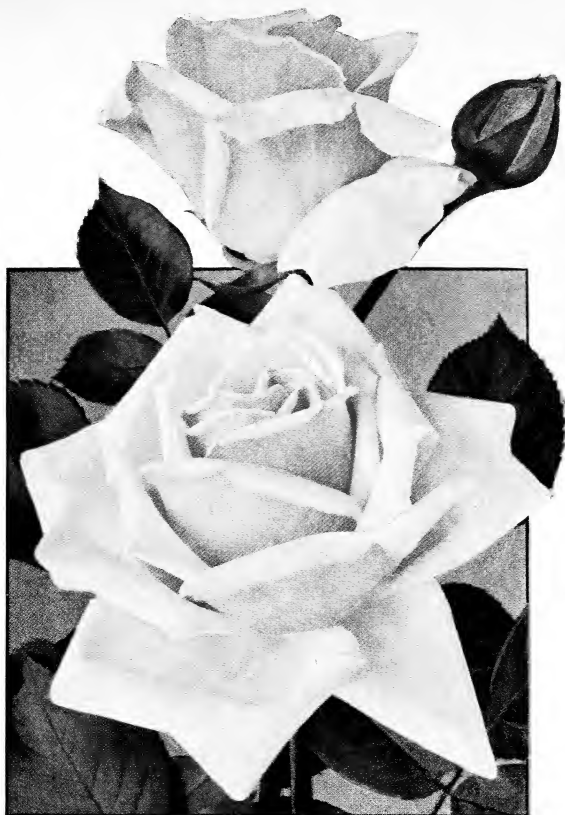

- American Pillar.** H.W. Single flowers, 3 to 5 inches across; cherry-pink. Vigorous grower.
- Aviateur Bleriot.** H.W. The buds, which are quite small, are a pronounced saffron-yellow, shading to apricot; on opening the blooms hold a similar color but of a lighter shade.
- Climbing American Beauty.** H.W. Rich carmine; fragrant. Blooms profusely early in the season.
- Dr. W. Van Fleet.** H.W. Flesh-pink on outer surface of petals, deepening to rosy flesh in center; petals beautifully cupped; bud long and pointed.
- Dorothy Perkins.** H.W. Blush-pink; profuse and long bloomer. Vigorous in all locations.
- Excelsa.** H.W. Brilliant scarlet, double flowers, borne in large clusters. Not subject to mildew. An improvement on the old Crimson Rambler.
- Gardenia.** H.W. Bright yellow buds and flowers of cream color, incurving toward evening to the shape and color of cape jessamine. Of greatest value for bank planting.
- Lady Gay.** H.W. Rich, delicate cherry-pink, shading to softer pink. Excellent hardy Rose, superb for covering fences, embankments, etc.
- Paul's Scarlet Climber.** H.W. Newest and best Climber. Vivid scarlet—in fact the most dazzling color to be found in any Rose. Forms a perfect bud in clusters of three to twenty.
- Purity.** H.W. Beautiful white climbing Rose.
- Silver Moon.** H.W. Immense flowers, sometimes 5 inches in diameter; pure waxy white, center yellow. Foliage glossy; immune from any disease.
- Tausendschon.** H.W. Soft rosy carmine when first opened, shading to white. Profuse blooming; very hardy and almost devoid of thorns.

POLYANTHA ROSES

- Baby Tausendschon** (Louise Walter). A low-growing form of Tausendschön. Rosy carmine, turning to paler pink when fully expanded.
- Katharina Zeimet** (White Rambler). Grows to a height of 20 inches and produces pure white double flowers.
- Mrs. W. H. Cutbush.** Similar in color to Dorothy Perkins—deep cerise-pink.
- Orleans.** Ideal for massing. Brilliant geranium-red, tinted pink, with creamy white centers. Vigorous grower; dwarf habit.

RUGOSA ROSES AND ROSE SPECIES

- Conrad Ferdinand Meyer.** H.Rug. Clear silvery rose. Beautiful buds.
- Rosa rugosa.** Wrinkled petals. Rose-carmine. Very distinctive and lovely.
- Rosa canina** (Dog Rose). Flowers single, pale red, sometimes fading to white. Plants grow from 6 to 10 feet high and bloom in June and July.
- Rosa carolina.** Well adapted for planting along water-sides and in low ground, but will thrive almost anywhere. Beautiful pink clusters.
- Rosa multiflora.** Small pure white blooms borne in great pyramidal clusters, covering almost entire length of long branches.
- Rosa setigera.** Deep rose-colored flowers produced in great profusion.
